

PERKINS TRAIL: Road name signs need straightening at St. Croix Road intersection. Trees need to be cut back on the west side near the south end.

ST. CROIX TRAIL: A few pot holes need filling just west of bridge.

FIVE MILE RD: The stop sign at the intersection of Five Mile Road and Dry Landing Road needs to be replaced and the sign raised to the proper height.

DRY LANDING RD: Grade and smooth out southern end (in progress).

NAMEKAGON TRAIL: Two snowmobile crossing road signs need to be replaced, as well as the stop sign at Five Mile Rd.

RIVER RD: Replace missing stop sign. Grade low spot near bottom of hill, and at some time, this spot could use a couple loads of gravel. Brush road, but only when in the area with mower. This is a very low usage road.

SPRINGBROOK TRAIL: Needs grading and many loads of pit run gravel on low spots and the general area about $\frac{3}{4}$ mile west of Namekagon Point Road. Note: This is currently being done. See comments at beginning of report.

SOUTH MARKVILLE RD: (6) Good shape.

NORTH MARYVILLE RD: (7) Good shape.

STATE LINE RD: Bridge sign needs straightening. Continue to watch spillway and develop plan for improvement. Question: Has Dairyland been grading to south to spillway as agreed to?

MONTGOMERY RD: Widen turnaround at south end of the road; add a few loads of gravel for turnaround. Chairman will talk to Dairyland Chairman about maintaining to the end of road.

BIG ISLAND RD: (2) Old asphalt. No plan to improve. Road badly needs some pot holes patched on north end.

BIG HILL RD: Take out or replace culvert and east end of the road.

TOWN BOARD:

Chairman: Vern Drake

Supervisor: Marty Pearson

Supervisor: Jesse Estridge
